

WRAPPING UP A GREAT YEAR!!!

Thank you for letting me enjoy your children this school year! I am confident they have learned much and are ready to tackle 5th grade. This has been a terrific class and one I will think of fondly.

This week we have a busy, unusual schedule. We will wrap up any 'odds & ends' that need completed, have our awards program, and enjoy our last school day together with many fun activities!!

Academically, we will continue to complete our 'Math Project' booklet and work on real-world problem solving. We will also squeeze in our End-of-Year reading benchmark test. Students will also be presenting their National Park

presentations that they developed using Google Slides.

Again, thank you for a wonderful year with your children.

Mrs. Nees
